What Our Mentorship Participants Have to Say

Sonia Elisheva
Singer/Songwriter

Andrea has been an invaluable mentor on my journey as an artist. With her guidance through regular mentoring sessions, I've not only grown as an artist but have also been able to create a clear path toward my goals. Her extensive knowledge and experience in the music industry has helped me define who I want to be as a musician and has given me the structure and discipline I needed to start making the transition from full-time work into the world of music. Without her support and expertise, this journey would have been a lot more difficult. I am incredibly grateful for her mentorship and the support I have received from Amplify Her, and the positive impact it has had on my career.

Stephanie Rodd
Singer/Songwriter

I really loved the mentoring with Andrea. I'm at the very beginning of my career, and she has truly helped me with the release of my first tracks. I didn't really know what needed to be done and when, and I was afraid of making mistakes. But Andrea guided me and provided direction. As an independent artist, you handle a lot of things on your own, but having support and guidance makes the situation much easier. Andrea pushes us to take action, which is sometimes necessary, but she also knows how to adapt and listen. She is very caring and asks us at every session if everything is going well, how we are feeling, and she is there to give us a boost and help us regain confidence when we doubt ourselves. She is very present and responsive whenever we have any questions. Thanks to this mentorship, I've already accomplished a lot at the start of my career. I highly recommend it.
